Climar Products

We understand that you want your home to look its best and you want the time to enjoy it with family and friends. In this busy world, the time you spend on garden maintenance and repairs can be a frustrating distraction from the time you really enjoy in the garden.

That's where Climar can help! We produce a range of products that aim to enhance your property and garden with minimum effort.

Our flagship product, ColourFence, will retain its finish for years to come, making your boundaries look better for longer, whilst requiring no maintenance (unlike timber fences which never age gracefully, even with regular staining).

As ColourFence is made from innovative Colorbond™ we guarantee your fence will remain unspoiled for at least twenty five years.

However, it's likely to look stylish for far longer.

Would a timber fence be standing after twenty five years facing the elements?

Looking good for longer

Designed to withstand harsh climates, ColourFence stays looking fresh and bright for over twenty five years, and stands strong even against 130mph gusts. ColourFence is maintenance free needing only a quick hose down with water a couple of times per year. You simply don't have to do anything else.

Even under the striking colour finish, the unique ColorBond™ has a 'Zincalume' layer. An outstanding, anti-corrosion technology, meaning scratches won't rust! When scratched, the ColourFence forms a waterproof layer made up of a combination of zinc and aluminium oxides. So even when chipped or damaged during its life in your garden, you won't see any rust!

Our materials are fully recyclable and no chemicals are required to maintain them, meaning ColourFence is kinder to the environment than treated timber.

Securing your privacy

ColourFence promises more than lasting good looks. With no footholds and a smooth finish, you can relax knowing this tough barrier will deter intruders and help maintain your privacy.

New Contemporary Trellis - 5 Rails

New Contemporary Closed Trellis

ColourFence is available in a range of heights, so with appropriate planning consents your fence could even be over two metres high! Meaning you can create a tranquil and private retreat.

New Contemporary Ranges

Elevate your outdoor space with a sleek, modern design. Our contemporary trellis fences and railings offer a stylish solution for your property's boundary needs.

Whether you're looking to add privacy, create a sense of elegance, or redefine your outdoor space, our Contemporary Trellis Fences and Railings are the perfect choice.

Make it your own

ColourFence isn't simply a boundary. It can transform your outside space with a clean and stylish finish. There are five colours to choose from. Mix and match components to create your very own look. So, whether you prefer a traditional Green or Brown, or seeking a modern touch of Blue, Cream or Grey. There is a style that's as individual as you are.

Whatever the shape of your garden, we can step, rake or cut ColourFence to any size, allowing your boundary to follow the natural contours of your land.

Our Service Promise To You

Whether you're inviting us to your home for a survey or arranging installation, we promise to always be punctual, polite and professional.

Our prices are fair, so there is no need to negotiate and we'll never coerce you into buying. In fact, we'll only install if you feel completely sure ColourFence will be a credit to your property and our company.

Trained, reputable and conscientious ColourFence team will install your fencing to your complete satisfaction.

Free, no-obligation advice

You can request free no-obligation quotes or advice by calling our head office or your local ColourFence installer. You can feel confident that you will receive a professional service and commitment to meeting your needs.

Furthermore, you'll find the ColourFence costs less than you might think. Whilst you may find cheaper timber fencing, ColourFence is consistently better value. That's because timber simply cannot outlast ColourFence, and with ColourFence you can look forward to year after year of stylish, solid protection with no maintenance.
